

Washington, DC-based MindShare Selects Bill Peterson for its 2024 Cohort

Flying Ship Technologies, Corp. to take part in select, invitation-only program for CEOs of innovative, fast-growing companies

Leesburg, Virginia—April 1, 2024—Flying Ship Technologies, Corp., developer of unmanned ground effect vessels, is proud to announce its inclusion in [Mindshare](#), an exclusive organization designed especially for founders and CEOs of the innovative, disruptive companies in the Washington, DC metropolitan area.

Founded in 1997 with the mission to help founders and CEOs build long-term, sustainable companies, Mindshare connects select, handpicked founders and CEOs from some of the area's hottest emerging companies, ultimately creating growth opportunities, and fostering collaboration in a collegial environment.

"We are delighted to welcome Flying Ship Technologies, Corp. to this year's class," said Steve Balistreri, Treasurer of the Mindshare Organizing Board. "Each year, our Mindshare participants hail from some of the most innovative organizations in the DMV and this year's class is certainly representative of the momentum and diversity we see in technology and product companies across this region."

Mindshare received nearly 150 nominations for 2024, with 52 of those accepted into the final cohort.

The newest Mindshare members will complete a series of classes, taught by notable speakers, on building a business as a founder or CEO. At the conclusion of the program, members with significant attendance and participation will graduate and join a powerful alumni network of more than 1,250 founders and CEOs.

The 2024 cohort members were welcomed by Ted Leonsis and the Mindshare Board at a kick-off event on March 8, 2024 at Capital One Arena.

The Mindshare Board's Executive Committee includes Harry Glazer of [SPROCKIT](#); [April Young](#); [Steve Balistreri](#) of MorganFranklin Consulting and [Michael Lincoln](#) and [Katherine Ferguson](#), both of Cooley, LLP. Mindshare is supported by a board of industry veterans who are committed to building a strong ecosystem for success.

About Flying Ship Technologies, Corp.

Flying Ship Technologies, Corp. has developed unmanned ground effect maritime craft that are revolutionizing global logistics. Flying Ships are 10x faster than ships, ¼ the operating cost of planes, and operate on electric propulsion. With the ability to beach along the coastline, our craft improve the lives of millions of people within the Caribbean, South America, and other coastal regions by providing logistics capabilities never before seen.
